

Agency Download Instructions

Agency Download is one of the features offered by Wright Flood to assist your agency to operate with efficiency.

If your agency uses an agency management system listed on the table below then consider allowing Wright Flood to send you an electronic download that will populate fields in your management system and keep your database updated saving labor for your personnel.

All processed flood policy transactions in Wright Flood's system are available daily for download into your agency management system.

Wright Flood supports download for the following Agency Management systems:

Vendor	Software System	Version
Agency Advantage	Download Manager	REV 032707
Agency Matrix	Agency Matrix	5.1307

If you're using one of the above Agency Management systems and would like to sign up to receive download, please complete the Agency Download Registration Form below and indicate your preferences, **then fax the completed form to (727) 803-8282 or email to agencyservices@weareflood.com**. You may also register online at www.wrightflood.com. Select "AL3 Registration" from the agent logon screen and follow the prompts.

Agency Download Registration Form

Send form to (727) 803-8282 or
agencyervices@weareflood.com

Agency Name: _____ Agency #: _____

Agency Internet Contact: _____ Download Start Date: _____

Email Address: _____

If you have multiple offices, will you be downloading data for your office only or all of your sub-producers

Do you want to receive commission downloads? Yes No

Which system and version are you presently using? *(Please refer to table on Agency Download Instructions.)*

System: _____ Version: _____

IVANS account: _____ IVANS user ID: _____

Machine ID: _____

Indicate whether you would like an initial download or future transactions:

- Transfer all existing information in one initial download.** Applied Users - Important – if you have flood diary data already entered in your agency management system, it may be erased if your current information matches with both the custom form type **FLOD** and the policy type **HO**.
- Transfer information from day of setup forward.** Only future flood transactions will be transmitted.

Indicate the policy number format you would like from the choices below:

- | | | |
|--|---|--|
| <input type="checkbox"/> Format 1: "11b222222222b3b44" | <input type="checkbox"/> Format 2: "11222222222344" | <input type="checkbox"/> Format 3: "11b222222222344" |
| <input type="checkbox"/> Format 4: "112222222223" | <input type="checkbox"/> Format 5: "11b222222222b3" | <input type="checkbox"/> Format 6: "11b2222222223" |
| <input type="checkbox"/> Format 7: "1122222222244" | | |

Legend: 11 is policy state; 222222222 is base policy number; 3 is policy code; 44 is policy occurrence; b represents blank space. Note: Formats 4-6 should prevent renewal transactions from going into suspense when the previous policy term exists on the agency's management system.

Special Instructions or Comments:

Once data is transferred from Wright National Flood Insurance Services, LLC, which includes Fidelity National Property and Casualty Insurance Company and Fidelity National Indemnity Insurance Company to my agency, Wright National Flood Insurance Services, LLC has no responsibility as to how the data is used and/or manipulated. Additionally, I agree to hold Wright National Flood Insurance Services, LLC harmless from any issues arising from the content and/or use of the data.
